Chapter 1

INTRODUCTION

Democracy requires an informed citizenry and transparency of information which are vital for its functioning. The people of the country have a right to know every public act, everything that is done in a public way, by their public functionaries. Thus the right to know constitutes the very basis of democracy. This right is implicit in our Constitution in Article 19(1)(a) on the Right to Freedom of Speech and Expression and Article 21 on Right to Life.

The Central Information Commission came into existence in October 2005 by enactment of the Right to Information Act, 2005 (RTI Act) by the Parliament of India. This Act provides for setting out the practical regime of Right to Information for citizens to secure access to information under the control of public authorities in order to promote transparency and accountability in the working of every Public Authority.

Legislative Intent

The legislative intent behind the enactment of the Right to Information Act is to promote transparency and accountability in the working of every Public Authority, bridge the gap between the information provider and the information seeker, enhance efficiency in administration of public authorities, mitigate corruption and promote good governance.

Salient features of the RTI Act

1.1 Public Authority

As per **Section 2(h)** of the RTI Act, a Public Authority means any authority or body or institution of self government established or constituted by or under the Constitution, any other law made by the Parliament, any law made by the State Legislature and notification or order made by the appropriate government. It includes anybody owned controlled or substantially financed and non-government organizations substantially financed directly or indirectly by funds provided by the appropriate government.

1.2 Meaning of “Right to Information”

As per **Section 2(j)** of the RTI Act, 2005, the Right to Information means the rights of a citizen to seek any information accessible under this Act, which is held by or under control of any Public Authority and entitles him to inspect work, documents, records which includes any document, manuscript and file and any electronic records, take notes, extracts or certified copies of documents or records, take certified samples of material and obtain information as stored in any electronic mode or through print outs wherein such information is stored in a computer or in any other device.

1.3 Restriction from Disclosure

No Right is unfettered and therefore while promoting openness and transparency, **Sections 8 and 9** of the RTI Act impose restrictions from disclosure of certain information. Such information are exempt from disclosure which affects, the sovereignty and integrity of the country and also its security and strategic, scientific or economic interest, commercial confidence, trade secrets, or intellectual property, information causing breach of privilege of Parliament or the State Legislature, information prohibited by any court of law. It also provides provisions for protecting the privacy of an individual. Certain intelligence and security organizations have also been exempted from disclosure of information, except the information pertaining to the allegations of corruption and human rights violations. Wherever competent authority feels that larger public interest warrants disclosure, the information may be provided.

1.4 Suo-Motu Disclosure

Section 4 of the Act provides for an elaborate manual for mandatory disclosure on various aspects of structure and functioning of Public Authorities and requires that they make suo-motu disclosure in public interest. This is the essential ingredient for broadening and deepening of the transparency regime. The said Section also emphasizes the need for using electronic means for record upkeep, management and dissemination of information. Indeed, a robust record management is at the very heart of the transparency regime.

1.5 Three tier system under RTI Act

The Act provides three levels for getting access to information from a Public Authority.

First Level is Central Assistant Public Information Officer/ Central Public Information Officer (CAPIO/CPIO) in a Public Authority, who is required to provide sought for information to an RTI applicant within 30 days of the receipt of a request unless it is exempt from disclosure or relates to a third party or to other Public Authority in which case it should be transferred to that Public Authority within 5 days of the receipt of the application.

Second Level is First Appellate Authority (FAA) an officer senior in rank to CPIO in the Public Authority, to whom an RTI applicant may address his first appeal, if he does not get the required information within the specified time or is aggrieved by the decision of CPIO. Together the CPIO and the FAA constitute the cutting edge of this 'practical regime of information' as envisaged in the preamble of the Right to Information Act.

Third Level is Central Information Commission to whom an information seeker can file a second appeal against the order of FAA, if he is not satisfied or does not receive an order from FAA within the specified time.

Complaint

A direct complaint can also be filed before the Commission in certain circumstances, such as (i) where the Public Authority has not appointed a CPIO or (ii) the CPIO has refused to accept a RTI application, or (iii) the CPIO has not given a response within the specified time or (iv) the CPIO has given incomplete, misleading or false information or (v) where unreasonable fee has been demanded by CPIO.

1.6 Powers and Functions of the Central Information Commission

The RTI Act empowers the Commission for dissemination of information through its various **Sections –18, 19 and 20**, which deal with appeals, complaints and penalties respectively.

Preparation of Annual Report

As per the RTI Act, the Commission is required to prepare an Annual Report which is to be forwarded to the appropriate Government, which in turn is required to lay it before each house of Parliament. The section and its various sub-sections dealing with this requirement are given below:-

1.7 Section 25

The various clauses under Section 25 deal with preparation of the Annual Report, submission of information to the Commission by the Public Authorities for preparation of the Annual Reports. It prescribes the contents of the Annual Report. It also bestows power on the Commission to make recommendations to the Public Authority so that the Annual Report is in consonance with the provisions and the spirit of the Act.

As per section 25(3), each report shall state in respect of the year to which the report relates,-

- (a) the number of requests made to each Public Authority;
- (b) the number of decisions where applicants were not entitled to access to the documents pursuant to the requests, the provisions of this Act under which these decisions were made and the number of times such provisions were invoked;
- (c) the number of appeals referred to the Central Information Commission or State Information Commission, as the case may be, for review, the nature of the appeals and the outcome of the appeals;
- (d) particulars of any disciplinary action taken against any officer in respect of the administration of this Act;
- (e) the amount of charges collected by each Public Authority under this Act;
- (f) any facts which indicate an effort by the Public Authorities to administer and implement the spirit and intention of this Act;
- (g) Recommendations for reform, including recommendations in respect of the particular Public Authorities, for the development, improvement, modernization, reform or amendment to this Act or other legislation or common law or any other matter relevant for operationalising the right to access information.

Further, as per section 25(5), If it appears to Commission that the practice of a Public Authority in relation to the exercise of its functions under this Act does not conform with the provisions or spirit of this Act, it may give to the authority a recommendation specifying the steps which ought in its opinion to be taken for promoting such conformity.

- 1.7.1** The Annual Report of the Commission is based on the inputs received from the Public Authorities on the implementation of RTI Act.

Chapter 2

Analysis of RTI Regime: Implementation of RTI Act by Public Authorities in 2014-15

2.1 Institutional Arrangements

- 2.1.1** For analysis of the RTI regime and to fulfill its mandate of preparing and submitting the Annual Report, the Commission invites online returns in a prescribed pro-forma from the Public Authorities in accordance with **Section 25(3)** of the RTI Act. All Public Authorities as defined under **Section 2(h)** of the RTI Act are required to be registered and known.

Identification of Public Authorities

- 2.1.2** Generally, it is expected that all entities qualifying as Public Authorities are declared by the Ministries/Departments. It is, however, still possible that a number of entities have not yet been declared as Public Authorities. Whenever any complaints of this nature are received after examination the Commission can after its deliberation, give directions to the concerned Ministry/Department to declare an entity as Public Authority. The Commission has also taken a pro-active role and directed that a uniform pattern be followed while declaring Public Authorities. However, it is clarified that the right for inclusion and deletion of the Public Authorities vests with the Ministries/ Departments.

2.1.3 Uniformity among Union Territories regarding creation of Public Authorities

The Ministry/Department is to register Public Authorities as per the definition in **Section 2(h)** of RTI Act. There is need to have uniformity in the creation of Public Authorities by Union Territories. It has been observed that some of the Union Territory administrations reported as a single Public Authority, whereas others have multiple departments reporting as separate Public Authorities, sometimes on the basis of geographical location of office. Suitable advice in the matter has been given by the Commission to the Union Territories. The present status of Public Authorities under administrative jurisdiction of Union Territories is depicted in the table 2.1 below:

2.2 Return Analysis - Submission of Quarterly Returns

The Commission has directed for submission of returns on quarterly basis by Public Authorities in a reporting year. Accordingly, every Public Authority has to submit four quarterly returns for assessment of their performance during a year. Any Public Authority, which fails to submit their return even for a single quarter, is treated as defaulter for this purpose. The Commission in the present report has analyzed performance of only such Public Authorities who have submitted returns for all four quarters. The details of compliance Public Authorities is given in Table 2.3. The Commission has taken up with all the Public Authorities to ensure total compliance for the submission of Quarterly Return and is continuously pursuing the matter.

2.5 Number of First Appeals under section 19(1) of RTI Act and their disposal

A person who is aggrieved by the decision of CPIO can file an appeal to the officer who is designated as First Appellate Authority by the Public Authority

During the reporting year, a total of 86,944 appeals were filed under **Section 19 (1)** of RTI Act and 83,476 appeals (96%) were disposed by the designated Appellate Authorities. In comparison to the previous year 2013-14, there is a decrease by 8% in total number of appeals received by the Public Authorities and an increase by 15% in their disposal.

2.6 Details of officials designated as CAPIOs, CPIOs and Appellate Authorities (AAs) u/s 5 (1) and 5 (2) of the RTI Act during 2010-11, 2011-12, 2012-13, 2013-14 and 2014-15.

The designation process of CAPIOs by the Public Authorities has followed an increasing trend compared to the preceding years. However the number of CPIOs increased till 2012 and then has declined. Likewise, in designating the number of FAAs the trend has been increasing since 2011.

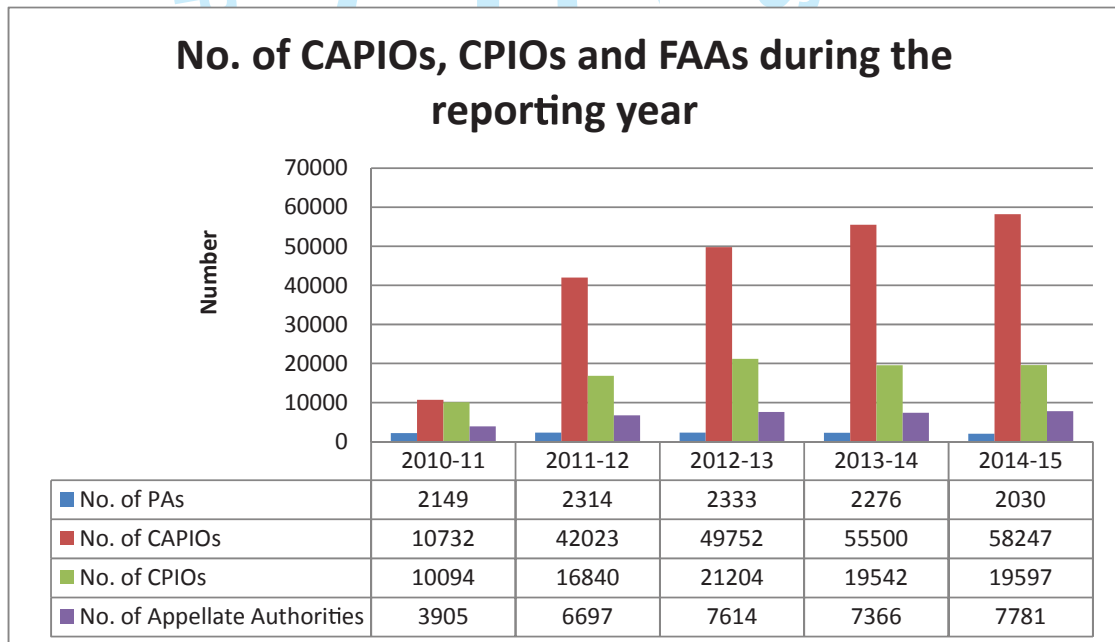

Figure 2.1: No of designated CAPIOs, CPIOs and Appellate Authorities by Public Authorities over last 5 years.

2.7 Details of amount collected by the Public Authorities as application fee, additional charges and penalty.

Total amount collected by the Public Authorities as application fees, additional charges and penalty during last five years are as follows:-

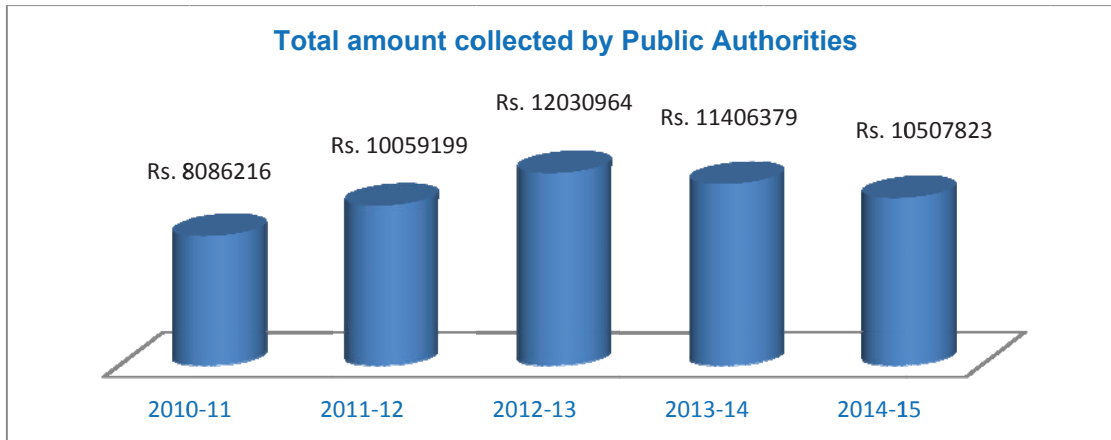

Figure 2.2: Total Amount (in Rs.) collected by the Public Authorities over last 5 years

During 2014-15 there has been a fall of around 7.87% in the collection of application fee, additional fee and the penalty amount reported by the Public Authorities as against the previous year.

2.8 Conclusion: Mandatory Disclosures under Section 4 is the essence of the Act.

All Public Authorities have to provide disclosure as mandated under Section 4 of RTI Act. For this, a pro-forma has been prescribed by the Commission.

During the reporting year, it has been observed that out of 2030 registered Public Authorities, there have been defaulters which are of various types as given below.

Number of Public Authorities who have not uploaded RTI Manuals/Disclosures	358
Number of Public Authorities who have not updated RTI Manuals/Disclosures Webpage Address for last 1 Year	806

The Public Authorities have to take a time bound action in furnishing disclosure mandated under Section 4 to strengthen RTI in their organisation. Further, Public Authorities with field formations need to assess the quality, citizen friendliness and the periodicity of dissemination of information so as to institutionalize the

disclosure mechanism as mandated in section 4 of the RTI Act. Ultimately, it is the creation of a robust and dynamic citizen – government interface through sharing of information which would benefit the government in its functioning.

2.8.1 Implementation of Suo Motu Disclosure under Section 4 of RTI Act, 2005

Detailed guidelines on implementation of suo motu disclosure under **Section 4** of RTI Act, 2005 were issued vide DoPT's O.M. dated 15-04-2013, a part of which is reproduced below.

"Section 4(1)(b) of the RTI Act lays down the information which should be disclosed by Public Authorities on a suo motu or proactive basis. Section 4(2) and Section 4(3) prescribe the method of dissemination of this information. The purpose of suo motu disclosures under Section 4 is to place large amount of information in public domain on a proactive basis to make the functioning of the Public Authorities more transparent and also to reduce the need for filing individual RTI applications."

2. *Since the promulgation of the Act in 2005, large amount of information relating to functioning of the government is being put in public domain. However, the quality and quantity of proactive disclosure is not up to the desired level. It was felt that the weak implementation of the Section 4 of the RTI Act is partly due to the fact that certain provisions of this Section have not been fully detailed and, in case of certain other provisions there is need for laying down detailed guidelines. Further there is need to set up a compliance mechanism to ensure that requirements under section 4 of the RTI Act are met."*

To further strengthen the guidelines issued by DoPT, the Central Information Commission had proposed a pilot project of 3 months regarding developing detailed guidelines and methodology for monitoring the implementation of **Section 4**, including conducting audit of selected Public Authorities.

Subsequently, a Committee of experts consisting of Shri A.N. Tiwari, former Chief Information Commissioner and Dr. M.M. Ansari, former Information Commissioner was constituted to recommend, inter alia, measures to further strengthen the implementation of **Section 4** of the RTI Act.

The Committee started functioning from December 2014 and it had submitted its report in April 2015.

3.2 Disposal of Appeals / Complaints - Automatic Generation of Data

3.2.1 All the cases in the data base pending for disposal were physically verified. To facilitate reporting of pendency and disposal figures on real time basis, the workflow system was modified. This modification resulted in automatic generation of opening balances of pending cases.

- (i) This included figures on registration, disposal and closing balance of cases at the end of a particular reference period.
- (ii) The system now generates expandable hyperlink for details of the cases in all four categories i.e opening balance, registration, disposal and closing balance.
- (iii) Particulars of file number, name of appellant/complainant, Public Authority, date of registration, date of hearing and the date of disposal are shown against each of the above category.
- (iv) The above details are shown against each Information Commissioner, unlike earlier manual arrangements which provided details in respect of the Commission as a whole. The reconciliation process resulted in generating the reporting figures on real time basis.
- (v) At present the details as cited above are available under the hyperlink “Monthly Progress Report” at <http://cic.gov.in>

Registration/Disposal

3.2.2 The database regarding registration/disposal of the cases during the reporting year in the Commission indicates the following figures:

Registration of the cases during 2014-15	35396
Disposal of the cases during 2014-15	20181
Pending cases for disposal as on 1st January, 2015	35891

It may be explained here that the penalties realized may not be of the year being reported upon. During the year various High Courts have stayed the penalty order of the Commission in two cases amounting to Rs. 25,000/- and Rs. 15,000/- respectively.

3.4 Plan Schemes of Central Information Commission

3.4.1 Construction of CIC Office Building – The Progress so far

- The Central Information Commission was allotted land measuring 2879 sq. mtrs. and 4653 sq. mtrs. adjacent to each other in the JNU Old Campus on 29th August, 2010 and 9th September, 2012 respectively.
- It is proposed to construct Office Building on the land measuring 4653 sq. mtrs. and to develop a green area in the 2879 sq. mtrs land.
- The completion period of the building project is two years.
- The Planning Commission 'in principle' approved the allocation of funds for construction of the CIC Headquarters building.
- National Building Construction Corporation (NBCC) has been engaged for project management of the construction work as well as the design of the proposed building.
- The Standing Finance Committee for the proposed building was approved by the Government at a cost of Rs.42.54 crores vide their letter dated 30.07.2014.
- The requisite clearances from all the concerned local authorities have been obtained for construction of CIC Building during September-October, 2015.
- The architect and the contractor for the construction of Building have been finalized by NBCC.

- The construction work has commenced and is likely to be completed by March, 2017.
- Final furnishing and furniture works are likely to be completed by June, 2017.

3.4.2 Appeal, Complaints Management and Locator System (AppCoMS – Locator)

The existing software in Central Information Commission for Appeals and Complaints management was designed with the knowledge at the initial stage and was developed on old technology. This software cannot be exploited further to cater to the growing needs of the Commission. There is a need for revamping of existing software.

- The Planning Commission has conveyed 'in-principle' approval for the Central Sponsored Scheme on 'Project Locator' under the Plan Revenue Scheme during the 12th Five Year Plan at an estimated cost of Rs.16.00 crores.
- However, due to some shortcomings in the proposed scheme, it has been decided by the Commission in consultation with NIC to revamp the existing IT system including a module for archiving the decisions of the Commission which was the main component of the Project Locator.
- Accordingly, the revised proposal for development of Appeal, Complaints Management and Locator System (AppCoMS-Locator) had been submitted to DoPT for approval.
- DoP&T has conveyed the approval for development of Appeals / Complaints Management and Locator System (AppCoMS-Locator) at a total cost of Rs. 1.73 Cr in December 2014 over the next three years viz 2014-2015, 2015-2016 and 2016-2017.
- A sum of Rs. 55 lakhs have been allocated for 2014-2015 and the same has been released to the Implementing Agency, M/s NICSI.
- The Agency has already issued work order in March, 2015 to M/s Silver Touch Technologies Ltd for implementing the project

3.4.3 Preparation of Publicity Material

This Plan Scheme has been carried forward to the 12th Five Year Plan for effective implementation of RTI Act, 2005 which has been approved by the Planning Commission. The activities planned under this Scheme are as follows:-

- a) Holding of Annual Convention
- b) Publicity and advertisement of themes and issues related to the Conventions to be done through audio-visual and print media.

The Commission has been organizing Annual Convention since 2006, as a major publicity event. These Conventions not only provide an opportunity and a forum for stake holders to meet and discuss critical issues related to transparency, governance, Information Rights and other related issues but also contribute significantly toward the broadening and deepening of the RTI regime by publicity.

During the last 3 years in the 12th Five Year Plan, an expenditure of Rs. 153.12 was incurred against an allocation of Rs. 181.20 lakhs as per details given below:-

Preparation of Publicity Material	2012-13	2013-14	2014-15	Total (Rs. in lakhs)
Allocation	100.00	18.20	63.03	181.20
Utilization	72.58	17.51	63.03	153.12

The internship program of the Commission has been designed for 4 – 7 weeks, during which, interns are exposed to the fundamental concepts of the RTI Act and its implementation. During 2014-15, Central Information Commission accepted internship requests from 07 candidates in the summer session and 06 candidates in the winter session.

RTI Seminar 2014

RTI Seminar 2014

3.7.4 The conclusions of the RTI Seminar- 2014 are summarized hereunder:

The RTI Seminar – 2014 was an occasion to reflect and introspect about how the RTI Act has impacted the functioning of the government and citizens. The Commission, through its decisions, has laid down basic principles for disclosure of various classes of information which were not considered fit for disclosure so far. A large number of appeals/complaints before the Commission indicates the need for enhancement in the quality of voluntary disclosure so that information seekers are not required to join long queues for seeking such information. It was emphasized during the Seminar that Public Authorities must be proactive and voluntarily put information in the public domain for the use of citizens.
